I drove by around 8pm. All lights were on. One was out. But I can't recall if that was in new section or not. Now - they look like different kind of light - white instead of the yellow glow. Not sure if that is what you have a problem with.

Jim

Jim Kennedy...

Please see Miki's feedback on the Sepulveda street lights. Is it possible to get the City's street lighting staff person meet with her on-site one evening next week. It seems to me like we may have some mis-communications going on here. How about Tuesday, January 19 at 5:30 PM? I can be there too; it's right before Bill's LAX / community meeting.

Currently...half the lights are lit....

Still dim..
